

# THE VEHICLE WITH THE BRAIN OF A SUPERCOMPUTER

ABOVE & BEYOND

## DOMAIN CONTROLLER MODEM

### STANDALONE eSIM

Vehicle Domain Controller contains its own eSIM for software-over-the-air downloads.

### CONSUMER TECH

Snapdragon™ 820Am chip provides processing power and connectivity with its own embedded modem.

### ALWAYS UP-TO-DATE

New Defender can download updates for 16 electronic modules, so it's always using the latest software.

### REMOTE CONNECTIVITY

Remote App allows customers to pre-condition cabin temperature while telematics supports e-Call and vehicle tracking capability.

### SAFE & SECURE

BlackBerry QNX operating system ensures data security using hypervisor technology.

LOGIC

CREATIVE

## PIVI PRO MODEM

### ADVANCED INFOTAINMENT

New Pivi Pro system has its own eSIM for in-car entertainment and app purposes.

### CONSUMER TECH

Snapdragon™ 820Am chip provides processing power, supports graphics and provides connectivity with its own embedded modem.

### ALWAYS CONNECTED

Delivers uninterrupted music streaming, app connectivity and supports Apple CarPlay and Android Auto.

### IN THE CLOUD

Latest CloudCar service platform enhances customer convenience with seamless app connectivity even without a smartphone.

### ALWAYS ON

Pivi Pro has its own back-up battery for instantaneous responses.

## CELLULAR INTERNET

Connectivity can roam across multiple network providers to maximise signal coverage.

# DEFENDER SUPER-FAST CONNECTIVITY

Innovative dual eSIM, twin LTE modem design means New Defender keeps customers connected, updated and entertained anywhere in the world. With one connection for the software-over-the-air downloads and another for the infotainment system, internet connectivity is never compromised.
