

# THE NEW RANGE ROVER EVOQUE

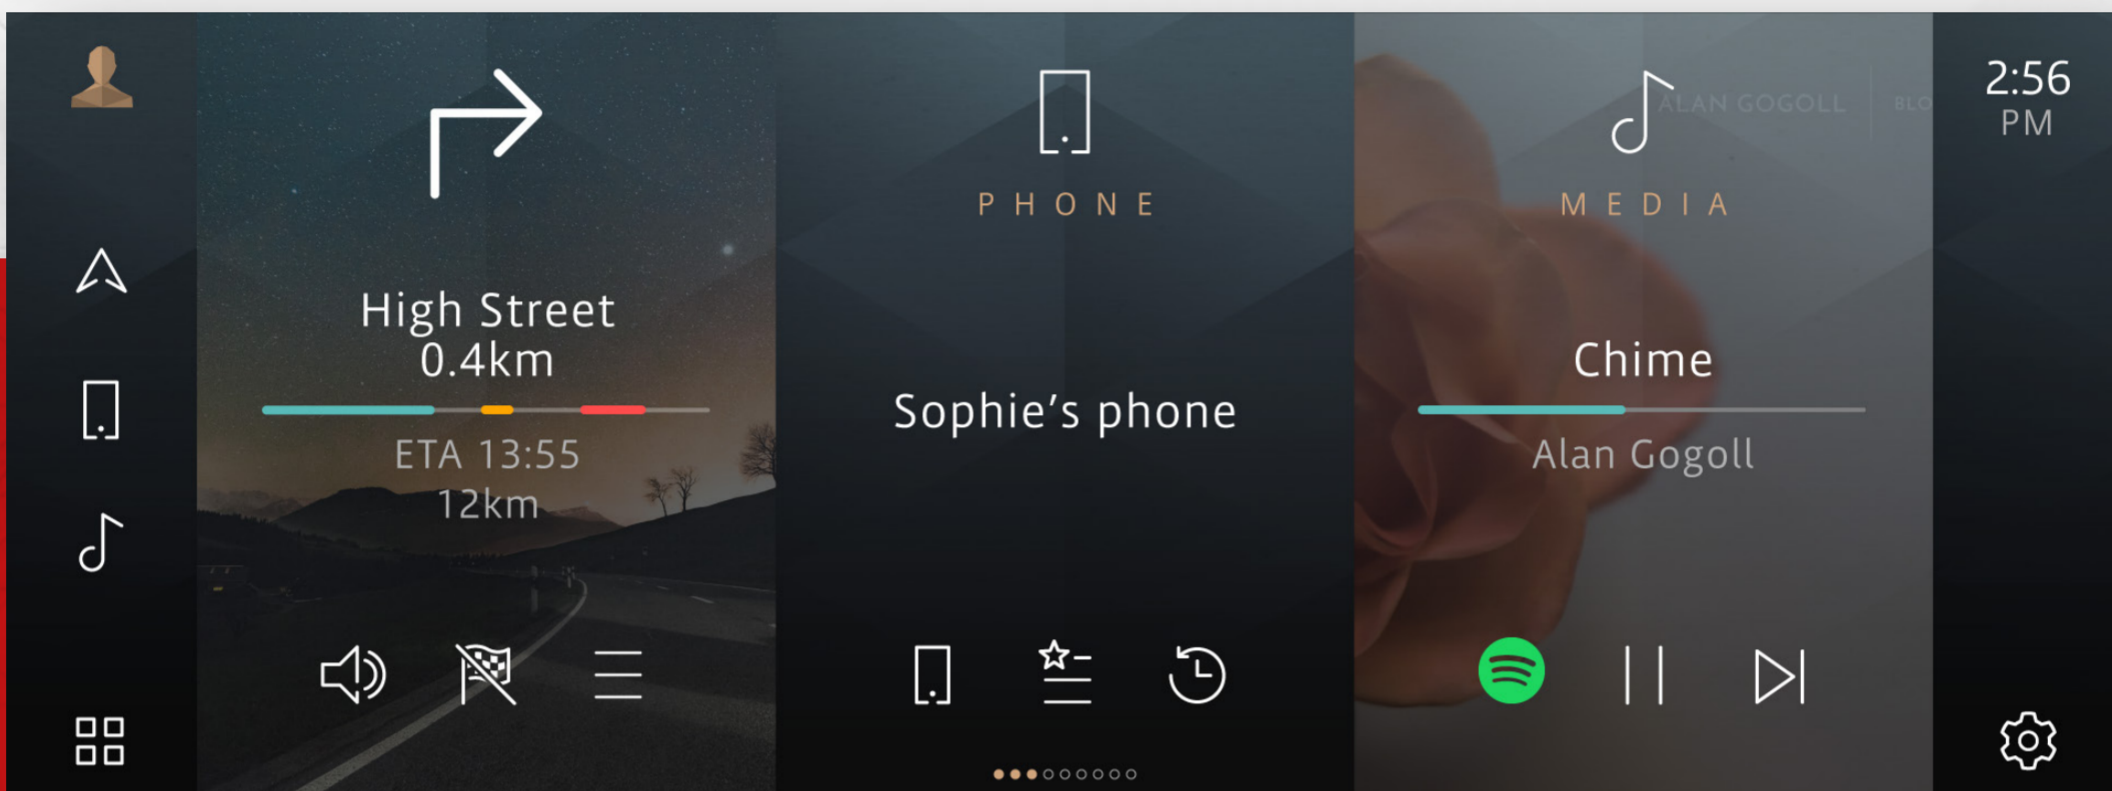

ABOVE & BEYOND

## + PIVI INFOTAINMENT: FASTER, SMARTER AND BETTER CONNECTED

The new Range Rover Evoque features the new Pivi and Pivi Pro infotainment systems which are designed around you.

As quick and easy to use as your smartphone, its self-learning technology means the navigation, media and comfort settings are tuned to your preferences.

## + FASTER . SMARTER . CONNECTED

### CUSTOMISE

Just like your smartphone, you can customise your home screen to see the things that are important to you

### ORGANISED

Link your Microsoft or Google Calendar to see appointments, dial into conference calls or track flight details

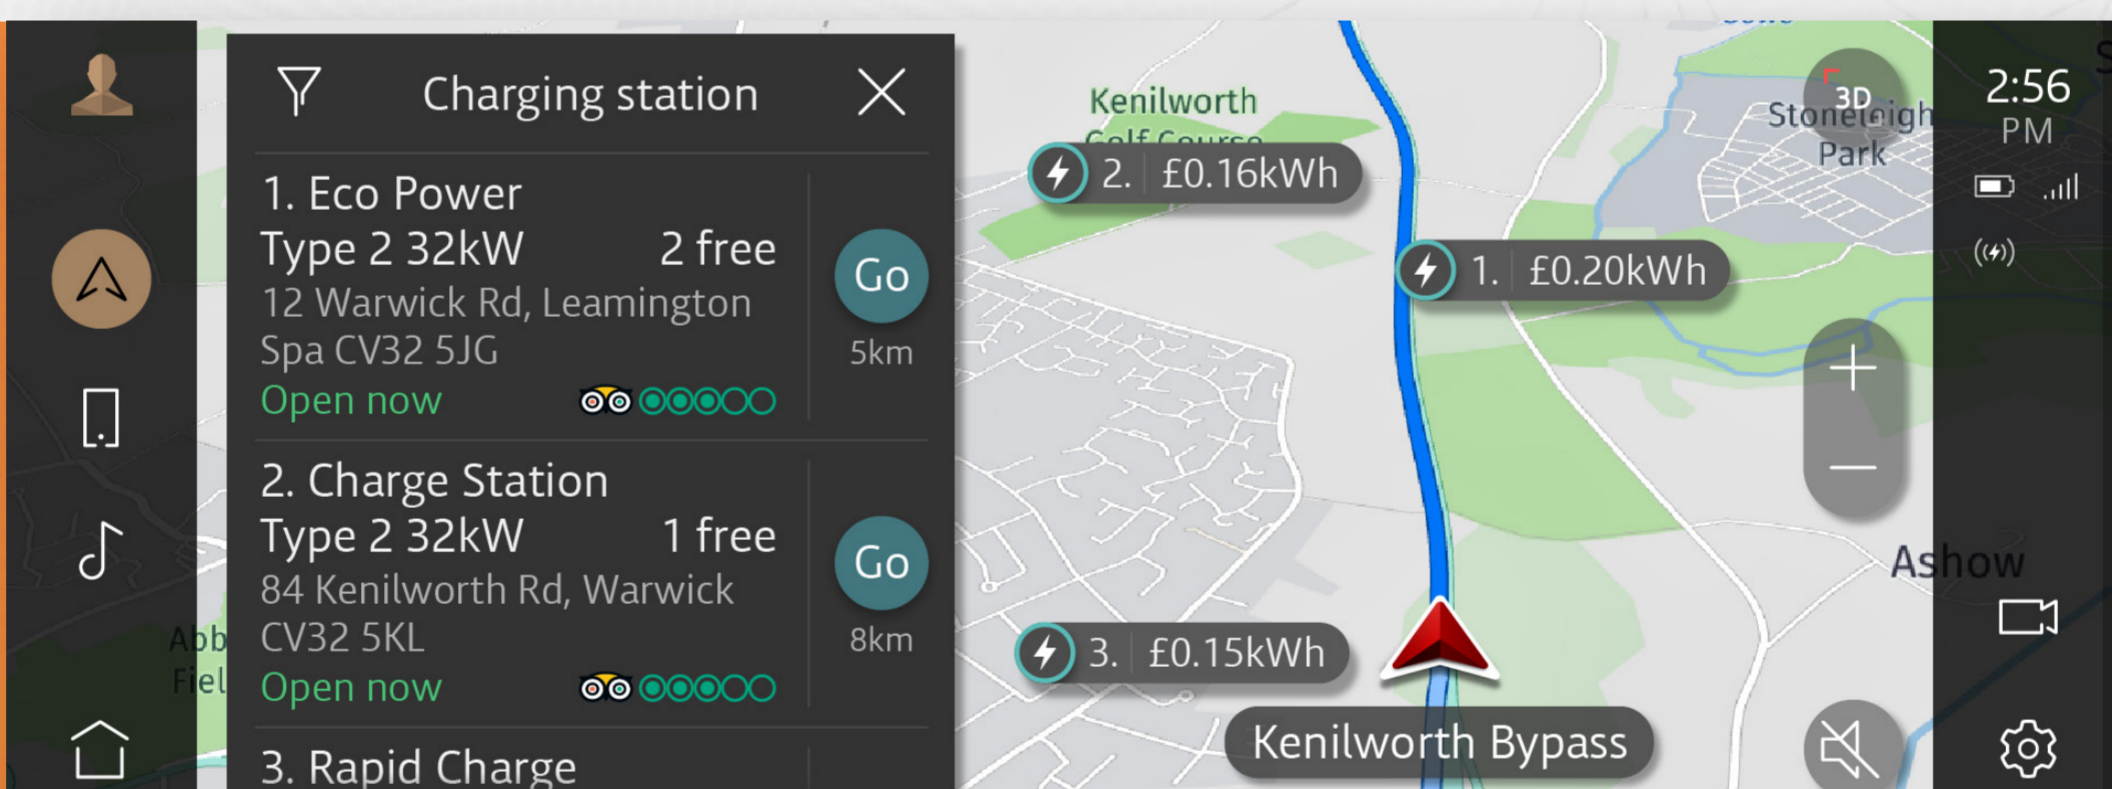

### READY WHEN YOU ARE

The system enables within seconds of unlocking, so it's ready to go by the time you're in the driving seat

### ACCESS ALL AREAS FROM THE HOMESCREEN

A totally redesigned user interface means that most of your favourite features can be accessed directly from the homescreen

## + FASTER . SMARTER . CONNECTED

### PHEV CHARGING STATUS

See what charge you have remaining, whilst the system advises the most energy efficient route to take

### ARTIFICIAL INTELLIGENCE

Automatically activates certain comfort features, suggests media sources and even knows who to call based on your routines

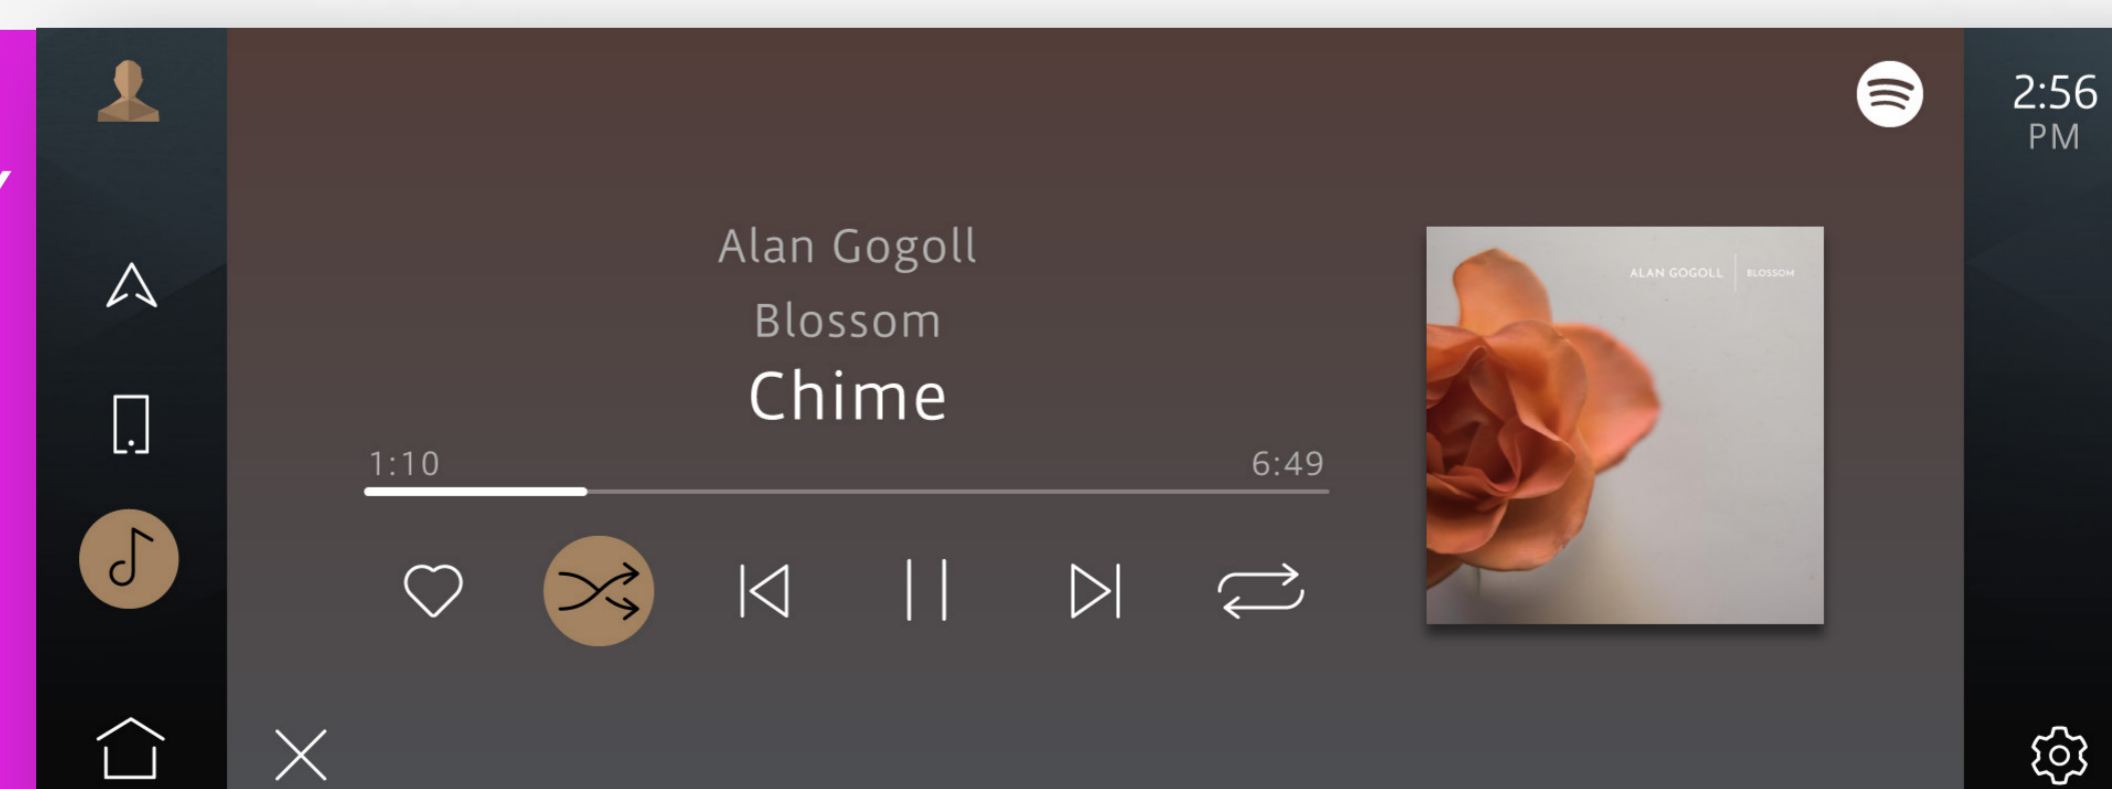

### ALL-NEW CONNECTED NAVIGATION

Online Routing and live traffic information syncs with Dynamic Routing capability to keep you on the fastest route whilst Smart Voice Guidance only gives verbal navigation instructions on routes that are unfamiliar

### SOFTWARE-OVER-THE-AIR (SOTA)

Automatically updates your maps in the background. SOTA also enables new features to be added, ensuring your infotainment experience improves over time

## + FASTER . SMARTER . CONNECTED

### INTEGRATED eSIM

Enjoy all the data you need without the need for a contract or a separate SIM card\*\*\*

### SEAMLESS CONNECTIVITY

Apple CarPlay is standard. As is Android Auto and Baidu Car Life\*

### FULLY INTEGRATED SPOTIFY

Unlimited music streaming and instant access to more than 60 million tracks and over 1.5 million podcasts\*\*

### CELLULAR INTERNET

Connectivity can roam across multiple network providers to maximise signal coverage

### PAIR TWO PHONES

Connect two phones via Bluetooth at the same time allowing either phone to be answered safely whilst driving

\*Dependant on market availability

\*\*Spotify Premium subscription required

\*\*\*Unlimited data plan and eSIM are market dependent. Unlimited data is provided by the eSIM and applies to connected services and features for their respective subscription periods.
