

DEFENDER

POWER MEETS DURABILITY

The new 525PS Defender V8 and flagship Defender V8 Carpathian Edition provide a unique combination of performance and capability, with bespoke chassis settings delivering enhanced levels of driver engagement and dynamic agility. The supercharged V8 powertrain creates the fastest and most powerful production Defender ever made.

EXTERIOR DESIGN

Instantly recognisable, the Defender V8 features a number of unique exterior enhancements that combine to set the most powerful model in the line-up apart.
