

RANGE ROVER

EXQUISITE LUXURY

The Range Rover SV is an exquisite interpretation of Land Rover's pinnacle luxury SUV, providing greater choice, heightened craftsmanship and greater functionality. It's the first vehicle to carry the new ceramic SV roundel and simplified 'SV' name, along with a laser-etched SV logo on the side gills and a black Land Rover oval.

SMOOTH CERAMICS

Smooth, tactile ceramic gear shifter is made using the same techniques as luxury watch faces.

MARQUETRY VENEER

Optional mosaic marquetry gradates through the centre console from front to rear, featuring hundreds of hand-laid laser-cut pieces of wenge.

METAL PLATED GRILLES

Lustrous Atlas Silver or Anthracite metal-plated grilles set the flagship SV model apart, with exclusive five-bar designs.

CURATED THEMES

Specially curated SV Serenity and SV Intrepid design theme options offer distinct personalities for both the exterior and interior.

ENHANCED ENTERTAINMENT

13.1-inch Rear Seat Entertainment screens - the largest ever fitted to a Range Rover - are exclusively available on the SV model.

SV SIGNATURE SUITE

Four-seat SV Signature Suite option features an electrically deployable Club Table and an integrated refrigerator with unique Dartington crystal glasses.
