DESIGNED FOR FAMILY LIFE: DISTINCTIVE DISCOVERY DNA

Modern & refined interior provides the perfect foundations for active family life

- **Discovery Sport:** The world's most capable compact family SUV with up to seven seats¹ is more luxurious and refined, with a modern, reductionist design, more comfort and connected technologies
- **Sharper design:** Distinctive bumpers and sophisticated detailing for a more purposeful and assertive stance
- **Technology focussed:** Elegant floating 11.4-inch curved glass Pivi Pro² touchscreen offers an intuitive user experience within the redesigned, simplified centre console
- **Versatile stowage:** Class-leading open front console stowage for everyday practicality³
- **Simplified line-up:** Three distinct models combine choice and simplicity with trademark Discovery DNA

Discovery Sport is a bold presence in any environment. Its Discovery DNA is clear to see, with a purposeful stance, rising waistline detail and distinctive roofline. Beautifully proportioned, it offers a unique, unmistakable character.

Sophistication and simplicity are evident inside and out across the model line-up, which comprises Discovery Sport S, Dynamic SE and Dynamic HSE derivatives.

Prof Gerry McGovern OBE, Chief Creative Officer, JLR, said: *“Discovery Sport is a characterful, modern, compact SUV, with a versatile interior and intuitive technology – perfect for active family life.”*

Exterior design

New for Discovery Sport S, full body-coloured lower sills add visual appeal, complemented by a new contrasting Gloss Black grille with signature Discovery hexagon motif, Indus Silver skid plates and Bright Atlas Discovery script on the bonnet.

The striking Dynamic models (SE and HSE) are assertive and purposeful. Their contrast roof, exterior accents – including Discovery script, grille, lower body sills and lower bumpers – all feature a distinctive Gloss Black finish. The tow eye covers are finished in body colour to complement the dynamic stance, while Gloss Black front claw detail on the bumpers and wheel arches amplifies its purposeful look, and the three-line signature of the front air intakes a clear Discovery design trademark.

Clients can choose from nine wheel designs, ranging from 17 to 21 inches. Bold new optional alloy wheels include a 21-inch finished in Gloss Black and 19-inch in a Gloss Black or Diamond Turned finish.

A more curated exterior paint palette sees the addition of Varesine Blue to offer a total of nine premium finishes: Fuji White, Eiger Grey, Carpathian Grey, Santorini Black, Ostuni Pearl White, Hakuba Silver, Firenze Red and Silicon Silver. All door mirrors are finished in Gloss Black to complement the suite of Gloss Black exterior elements.

Interior design

Inside, striking design changes create a more connected and versatile cabin. The new dashboard features a floating 11.4-inch curved glass Pivi Pro² touchscreen to provide intuitive control over all key vehicle functions and is easy to use thanks to its position, high on the centre of the dashboard.

The simplified centre console has been redesigned to provide space for everything family life can throw at it. Thoughtful stowage includes a practical new area for items beneath the Pivi Pro² touchscreen, in addition to the Wireless Device Charging area, between tactile structural side rails. The redesign liberates stowage space, giving Discovery Sport one of the most spacious open front console stowage areas in its class for superior everyday practicality³.

The revised centre console arrangement also features a tactile new gear shifter, surrounded by a dark anodised trim to complement the detail found on the door inserts. Paddle shifters are now fitted as standard to all Discovery Sport models.

Luxurious cabin quality comes from finely crafted, tactile materials and the interior feels bright, spacious and airy with stadium-style seating providing optimum visibility in all three rows of seats¹. The optional panoramic glass roof elevates the sense of space even further.

Discovery Sport S and Dynamic SE models feature DuoLeather interiors with up to three colour options, while a non-leather alternative – Luxtec with Suedecloth – is available as an option, made from recycled polyester microfibre with a luxuriously soft finish.

For heightened comfort, Dynamic HSE is available with Ebony Windsor Leather with Lunar Grey contrast detailing on the seats. Alternatively, clients can choose a DuoTone Light Oyster and Ebony trim, offering a distinctive two-tone finish to the interior.

The clean and elegant three-spoke, multi-function steering wheel is available in soft Windsor leather or a leather-free textile on the S and SE.

With an elegant and purposeful design, the Discovery Sport is a compelling and sophisticated member of the Discovery brand.

ENDS

¹Seven seats not available on plug-in electric hybrid models.

²Pivi Pro features, options and their availability remain market dependent – check with your Retailer for local market availability and full terms. Certain features require an appropriate sim with a suitable data contract which will require further subscription after the initial term advised by your Retailer. Mobile connectivity cannot be guaranteed in all locations.

³When measured against a closed class of competitors as of 03/03/2023.
